

Ready to deliver your films worldwide?

Upload once. Deliver anywhere. Monitor everything – in just a few steps.

UPLOAD YOUR FILM

In the Dashboard, click Upload Film and upload your movie file. Additional subtitle and audio tracks can be uploaded separately. Each film undergoes in-person quality control by the Artinii team.

Once processing is complete, review and approve all elements on your side.

How to upload – Tutorial

File requirements

SEND YOUR FILM

Select a film from your library and click Send Film. Choose a venue, define licensing conditions (number of screenings and license time window), and confirm. A secure license is instantly issued, ensuring fully controlled and protected playback at the venue.

Pricing Plans

MONITOR SCREENINGS

Go to Reports to review your orders and screening status.

Here you can view and export reports. You will also receive your monthly activity at the start of the next billing period.

Billing & Reports – FAQs

Ready to start screening?

Secure playback - no drives, no heavy tech required.

Still need assistance?

We've got you covered with online guides and support.

SCREEN FILMS

Prepare your screening by setting up your venue account and downloading the Artinii Cinema Player. Download the film locally to the app for secure offline playback, then create your playlist (including trailers or ads).

When it's time, run everything with a single click.
